Input for HOUSE BILL NO. 44

Greetings from northwest Montana. My name is John Trochmann, John spelled with an H. Last name spelled Trochmann, Noxon, Montana.

As do many Montanans, I to have great interest in House Bill No. 44 for all of its noble intensions. I am also part of the Sanders county Natural resource Council and have a very good understanding of the word **COORDINATION** and its invoked powers based upon Federal and State Laws.

Such as: National Forest Management Act (NEPA) 16 USC 1604(a) "The Secretary of Agriculture shall develop, maintain, and, as appropriate, revise land and resource management plans for units of the National Forest System, **COORINATED** with the land and resource management planning processes of State and local governments and other Federal Agencies."

Coordination gives our local government an equal standing at the table with State and Federal Agencies based on existing laws. Co-operating Agency status has no supporting laws. Please do the right thing and go with Coordination only. Our local economy is counting on it.

Respectfully submitted
John Trochmann
